Ron-

As you likely know, Ken Frazier will not participate in the 5 pm call due to travel. Steve Garban will call on you for a report of the Special Investigations Task Force.

One thing that you may want to mention is that a Trustee (Suhey) received a message earlier this week from "Jessica" who identified herself as part of the special investigation process. Paul didn't feel it was a legitimate inquiry and phoned me. I advised the Freeh Group as well as inquired as to the credentialing information provided to the trustees if and when they are contacted. Omar advised that I will be the point of contact for requesting interviews with the University community and with the Board members. If they know this in advance, it may alleviate confusion on the Board's part.

Thanks,  
 Paula
